UNEP Mandate

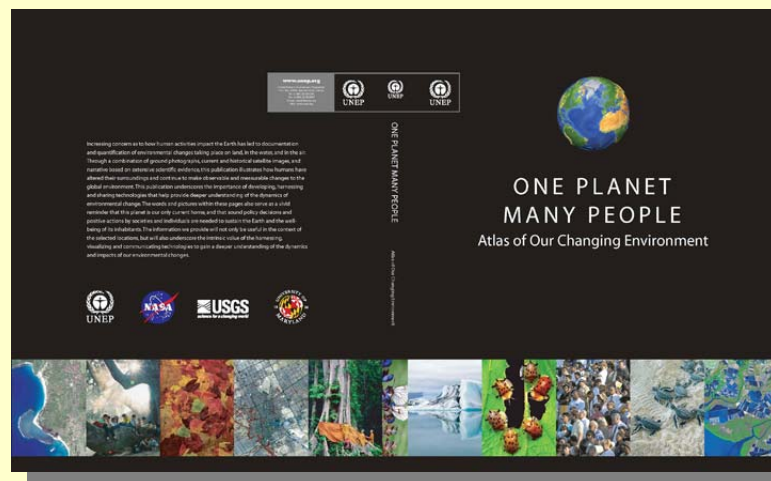

To keep the world environmental situation under review

Global Environmental Alert Service (GEAS)

“Providing scientific information for decision making”

Veronica Grasso, Ph.D.

United Nations Environment Programme

WHY?

Vision: Everyone in the world should have access to information about what is happening to his/her environment

Mission: Providing scientific information for decision making

Goal: Empower people with engaging environmental information

Through GEAS, UNEP will become **Information Broker** of scientifically credible data and information to public and decision makers;

HOW?

Global Environmental Alert Service (GEAS)
